5Why?!

5Why?! – Training – Solutions – Knowledge Pool

This classic SixSigma and quality mgmt tool is available to you. Use it to professionally address the root causes of symptoms that time and again cost your time, money, and nervs. 5Why?! lets you get to the core of the matter.

We offer to train individual groups, implement the method across your company, and to establish a knowledge pool. And obviously we are ready to help with specific projects to ease your mind.

Symptoms costing your time, money, and nervs:

- Issues are addressed but reoccur again in similar fashion
- Work flows seem to take far too long, but no-one knows why this is

- Reports and analysis are always late and not meeting your expectations
- Each site is starting from scratch despite having the same issues as all others

1. Training offer for groups

- Training of groups with 8 participants (max. 12)
- Preferably with similar symptoms to be solved
- 5 ½ hours (plus lunch)
- **Price: 1,600 Euro** (+ VAT and travel expenses)

- Method, questioning, success factors
- Working through individual projects
- Result documentation and packaging
- Presentation of action plans and deployment

2. Implementing the method across your company

5Why?! gets really productive when the method is implemented across the organization and becomes a day to day used tool. This automatically results into a valuable Knowledge Pool.
We are happy to discuss an individual plan deploying the following elements as required:

- Training of employees
- Individual support of projects
- Leadership coaching
- Monitoring (deployment + results)
- Build up / usage of a the Knoweldge Pool

3. Support of your specific projects

We work with your projects teams to address critical topics. We offer training of the team, methodical coaching, solving specific questions, and ensuring

deployment of and support for action plans.
We are happy to provide a **project specific offer.**

Address the root causes of symptoms finally needing a resolution, with effective action plans and accelerated execution.
